

## TYRE REMOVER

### Specific detergent for the removal of tyre marks

#### DESCRIPTION

TYRE REMOVER is a detergent designed to remove the marks left by black vehicle tires. Its special formula helps remove dirt from the floor without ruining the surface layer of protective resin.

#### APPLICATION

The product can be used pure or diluted with clean water dilution ratio of 1:3 (1 part of TYRE REMOVER with 3 parts of water) depending on the dirt to remove. Apply the product on the portion of the floor to be cleaned with a single brush and red abrasive disc. Let it soak for about 5 minutes then rinse thoroughly with clean water. If necessary, repeat the procedure.

#### CONSUMPTION

Indicative consumption of pure product can range from 50 to 150g/m<sup>2</sup> depending on the dirt to remove.

#### PACKAGING AND STORAGE

TYRE REMOVER is available in 5 - 10 l tanks.  
In the original packaging and when stored at 10-30°C, the product will last for 12 months.

#### PACKAGING

TYRE REMOVER is available in 5 and 10L cans.

#### WARNINGS AND STORAGE

Keep from freezing. Store in tightly closed containers in a cool and breezy place. Can be stored for about 12 months in the original bucket.  
TYRE REMOVER IS A PRODUCT FOR PROFESSIONAL USE ONLY.

#### IMPORTANT:

All the information contained in this sheet is based on the best practical and laboratory applications. It is the customer's responsibility to check the product is suitable for the intended use. The manufacturer declines any responsibility for wrong application. It is recommended to carry out tests on small areas before application. This sheet replaces and cancels any previous one. The data contained can be changed at any time. Ideal Work products are for professional use and the company organises periodical training for its customers on demand. Anyone who uses these products without qualification takes all the associated risks.
